

MIXING SHAFT ASSEMBLY

2-BLADE TYPE HSG BLADE HOLDERS ON HUB

MODEL MSA-2-24HSG-SS

Features:

- Mixing shaft with keyways, SS304
- Blades, Style HSG, 24" diameter, 10 gage, polished, SS304 (2 req'd)
- Blade holders assembly, SS304:
 - Top Holder with hub, keyway, set screws.
 - Bottom holder, plain
 - Through bolts, nuts, washers (2)

Applications:

- Agitation with some shear and lot of movement
- Number of blade assemblies is a function of tank depth and capacity.
- Similar blades in 1/4" thickness were found to outlast urethane blades when used in abrasive slurries, like sand, cement etc.

Availability:

- These blades are available in diameters ranging from 4" to 36" in various alloys and thick nesses.
