

## **DISK PADDLE MINI-TURBINE**

**MODEL DPT-02-6P-SS**

Blade Model or Type DPT-H-02-6P-SS is shown on top left and on shaft bottom picture. It has a diameter of 2", 6 paddles, hub with 1/4" bore and 2 set screws, on a 1/4" diameter shaft.

Top pictures show models/types in 2" diameter, (on the left) with hub with 2 set screws (type DPT-H-02-6P-SS) or on the right plain bore (type DPT-02-6P-SS).

Standard stainless type is 304. Stainless type 316 is optional and at higher prices.

These models/types are offered in diameters ranging from 2" to 36" with optional hubs.

Mixing shafts in length from 10" and up are available with any of these blades.

Application is for radial flow when intense mixing is essential. They work best in the mixing speed range of 20 to 80 rpm.
