

SERIES 4050
MODEL DVL-050-42/16-EX/SS
DRUM MIXER, VARIABLE LOW SPEED

- Motor, 5 HP, 1750 rpm, TEFC/EX, 3-phase, 230V
- Gear Reducer, Heavy Duty, FS 2.0
- Mixing Shaft Speed Range: 40 to 160 rpm
- Side mounted speed control hand-wheel
- Air-Over-oil Lift, 42" rise, with controls
- Very High Efficiency Turbine, (Type VHE), 12" diameter
- Can lock assembly, adjustable 5 to 55 gal

This Mixer/Blender is heavy duty, high torque belt/gear motor drive using Speed Selector variable center pitch pulleys drive designed into a single belt power train resulting in maximum power delivery to the low speed turbine. This unit may be used to process viscous products such as inks, adhesives, gels, creams, etc. in containers with capacities of 5 to 55 gallons (pails, drums, square or round bins).
