

COVER, MIXING TANK

MODEL: LBE-65-VP-SS304

Features:

- 2-Pieces, 60 degrees, pie type, hinged
- Box shoe lip: 1"
- Handles: ½" x 8"
- View port: 6"
- View port cover 6 ½" x 2"
- Tank diameter: 60"
- Tank angle ring: 2" x 3/8"
- Cover ID: 65"
- Materials: SS304
- Finish: Mill, 2B
- Weight: 132 lbs

Applications:

This cover is used on a 40 HP post mounted Disperser System.

It allows the ease transfer of the Disperser mixing shaft to be moved from one mixing tank to another mixing tank.

The disperser head is turned manually to position the mixing shaft at the center of the folded pie covers opening.

The head is lifted to expose the disperser blade assembly on a higher level than the cover.

The head in the raised position is then turned manually in line with the other tank.
