

- **HIGH SPEED BLADES FOR DISPERSING**
- **LOW SPEED TURBINES FOR MIXING & BLENDING - OPTIONAL SANITARY POLISH**

Dantco Mixers Corporation has a line of stainless steel and abrasion resistant (polyurethane) high speed dispersion blades in various styles to suit the particular dispersion application. Most blades, in standard thickness, are in stock and available from 2 to 36 inches in diameter suitable from laboratory, to pilot, to full production. Stainless blades with thickness up to .1875" (5 mm) are available on special orders. The laboratory line of blades and turbines may be offered with shafts of various sizes. For additional information call 973-278-8776, e-mail [sales@dantco.com](mailto:sales@dantco.com), or visit our web site [www.dantco.com](http://www.dantco.com)
